

Assignment 3
In Your Space
30 points

Prepare at least three ways you will visually put your change initiative in the space of others. Consider the examples we discussed in class or develop your own. Present these to the class for feedback at various times throughout the semester.

Once you have completed all three, and presented them to the class for feedback, summarize them in a short paper and submit it. This paper must include evidence of the three items (photo or actual item attached).
