

Homework 4

Due 13 March, 1985 (15 March, though not a class day, is ok)

Problem 2 on page 71 of the textbook. Use Pascal characters for the example.

Problem 1 on page 118 of the textbook. Use Pascal sets for the example.

Problem 7 on page 119 of the textbook.

Problem 19 on page 119 of the textbook. Your “program segments” used to answer the question need not be more than two or three lines of Pascal. (Omit type definitions and variable declarations.)

Homework 5

Homework 5 will be assigned after Spring break. It will be the usual problem (find the next largest prime) written in FORTRAN 77.

Midterm

Yes, it must happen. The midterm will be Wednesday, March 20. It will cover chapters 1 through 4 of the textbook and the programming languages BASIC, FORTRAN, LOGO, and Pascal.
